Here they come
Here they come
Here they come, yeah
Some are walking, some are riding
Here they come, yeah
And some are flying, some just gliding
Released after years of being kept in hiding
They're climbing up the ladder rung by rung

Enter the young, yeah
Yeah, they've learned to think
Enter the young, yeah
More than you think they think
Not only learned to think, but to care
Not only learned to think, but to dare
Enter the young

Yeah, here they come
Some with questions, some decisions
Here they come
And some with facts and some with visions
Of a place to multiply without the use of divisions
To win a prize that no one's ever won

Here they come, yeah
Some are laughing, some are crying
Here they come
And some are doing, some are trying
Some are selling, some are buying
Some are living, some are dying
But demanding recognition one by one

Enter the young, yeah
Yeah, they've learned to think
Enter the young, yeah
More than you think they think
Not only learned to think, but to care
Not only learned to think, but to dare
Enter the young

ADMINISTRATION FACULTY

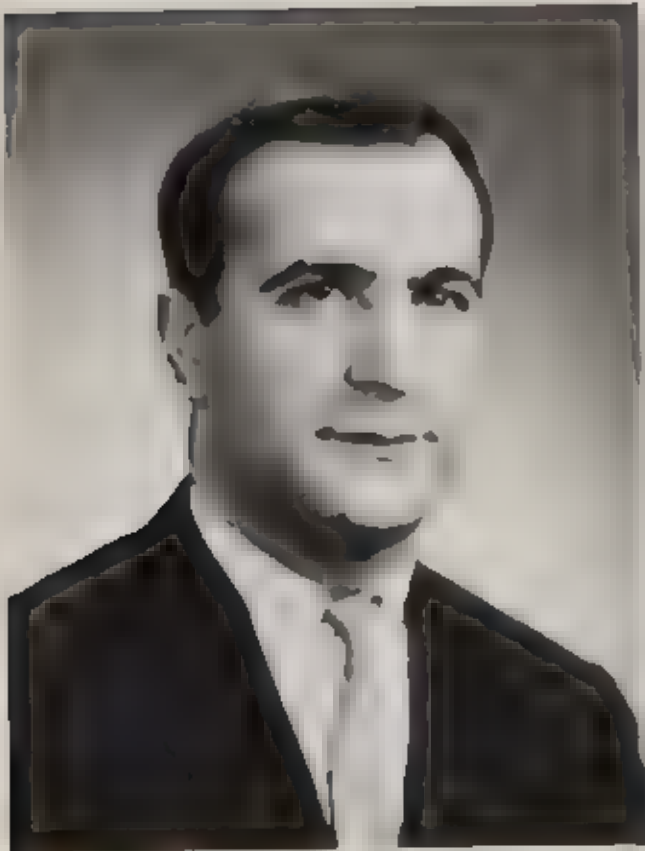

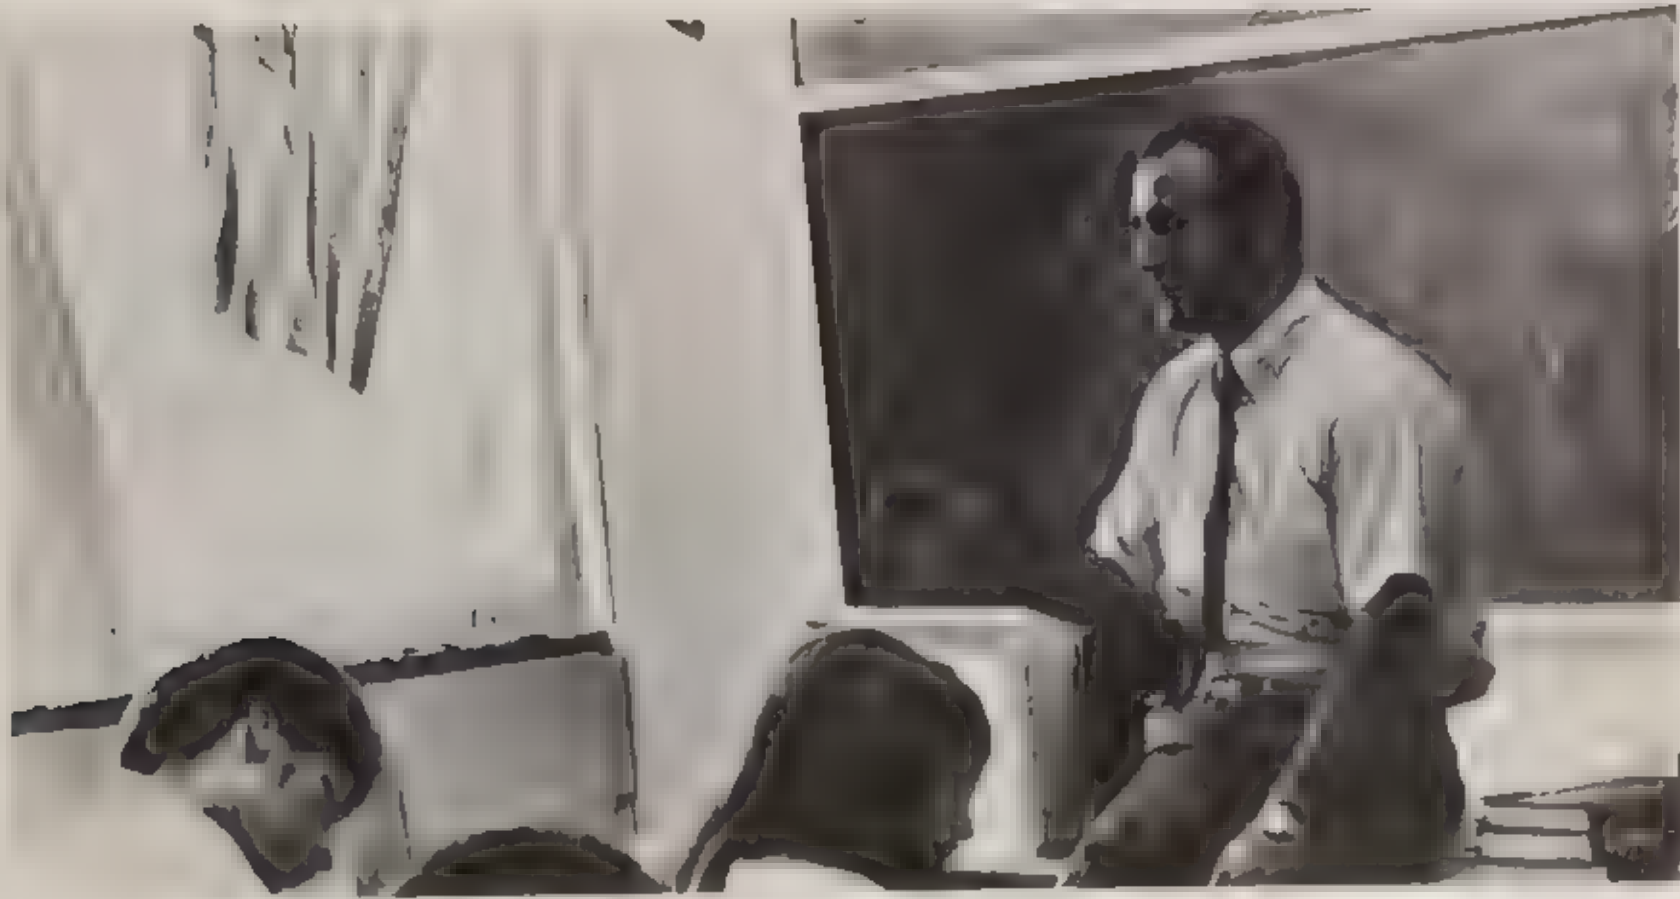

WITH GRATITUDE AND ADMIRATION WE MR. JOSEPH SCANCELLA

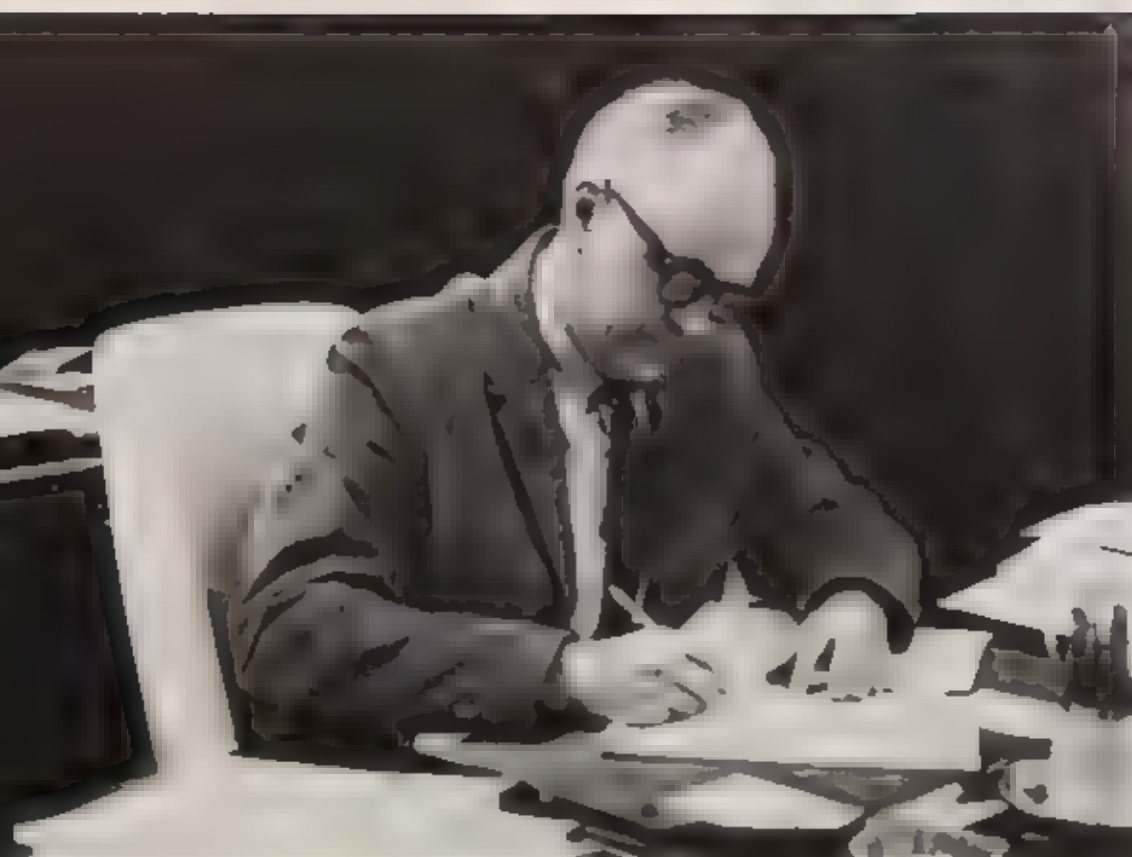

"We must always have old memories and young hopes." Many people have worked to instill the hopes, but a few have also created the memories. One such man is Mr. Joseph Scancella who has put forth all his efforts to make our senior year come to life. Mr. Scancella — the class of 1970 thanks you.

DEDICATE THIS OUR 1970 RAMPAGES TO MR. CARL GRECCO

Our education has been vast in both experiences and acquaintances. Of these acquaintances some have given us an insight into learning and some have given us an insight into life. Thank you Mr. Carl Grecco for giving us both.

Dr. Knute Larson
Superintendent

Mr. Fred Owens
Director of Secondary Education

SCHOOL BOARD

To the graduates:

"Now It's Time for the Construction Gang

Every revolution bursts into action with a wrecking crew formed to destroy the older order. Frequently this crew is carried forward by a guiding ideology. Sometimes it is simply fueled by indignation. If this crew is tough and determined and if it has studied well the lessons of history in guerilla tactics, it may overthrow a structure of considerable power. At least it will shake it.

Sometimes, as in the case of the American Revolution, the plans for a new society were blueprinted before the shooting started. When violence had achieved its first goal, the leaders referred to their plans, shifted their roles back from soldiers to construction workers and turned to the task of building a new society in the ashes of the old. This is how our Nation was born.

Too often, however, the wrecking crews of revolutions have had little interest in, or aptitude for construction. They know how to make molotov cocktails but cannot make new cities. Rightly or wrongly this is precisely the image being cast by today's "youth revolution"

Revolt has never eliminated the basic lusts of man for wealth and power. It has, on the contrary, stimulated them. When the construction gang fails, the power structure drama simply changes its actors. The same play goes on.

It takes courage to shake any power establishment, but it takes greater courage and far more skill to challenge an establishment (old or new) and to make the radical changes necessary to cleanse our air and our steams; to eliminate poverty, injustice, and war; to plant forests and to build shining new cities as legacies to our children and to their children to come. Your generation seems to be showing some of the necessary courage. It has yet failed to show the skill.

How about you? Are you preparing yourself to join the construction gang to build a new America? The formula is simple but time is running out. **RETAIN THE COURAGE AND LEARN THE SKILL**

Knute Larson

Mr. Frank Daly
Principal

"ENTER THE YOUNG"

Dear Graduates,

Commencement symbolizes your personal conquest of the many social and academic challenges that you have faced in the past twelve years. The educators of Bristol Township have tried to provide you with every feasible avenue for personal development inside and outside of the classroom. We hope that you took full advantage of these opportunities.

Now you must steel yourselves to face the challenges of a complex and oftentimes violent world. Instead of revolting against everything offered you by the "older" generation, could you look at the works of our generation as a phase which you must perfect rather than destroy?

Those who went before you wanted change as intensely as you do. Within a short span of time they increased your life expectancy by fifty percent, while cutting the working day by a third. The older generation drove the killers — influenza, typhus, diphtheria, small pox, polio, tuberculosis and scores of other diseases into hiding.

Because of the constructive "revolutionists" of the past, you have better food to eat, finer clothes to wear, a more comfortable home to live in, and better schools to attend. You find yourselves surrounded by electronic, mechanical and medical wonders which save you time and effort.

Yes, those of us who represent the "older" generation have failed to defeat poverty, cure the sore of racism and we have yet to find a just and effective alternative to war. We are weary and reeling from fighting these awesome problems.

Now is the time for you, the young, to enter the fray and make the world a better place to live for your children and the children of mankind.

Sincerely,
Frank Daly

Mr. Frank Ritrievi
Assistant Principal

Dear Seniors

In our complex society, simplicity and smallness are rare commodities. Always searching for these two refreshing characteristics, I discovered them recently as I paged through a small book written by Wilfred A. Peterson, entitled **The Art of Living**. This man's philosophy of life is so wonderful and so simple that I felt compelled to share some of it with you.

On AMERICA-America is a book in which you set down your life by the way you live it. You are the principal character. You live your own biography. You are free to be hero or villain, great or mediocre.

On FREEDOM-freedom is a personal thing. Freedom is your right to be yourself, to make mistakes, to fail and try again. It is a blessing to be shared. The fruits of freedom depend upon the interaction of thoughts, ideas and ideals of men.

On PEACE-peace is sanity, maturity and common sense in human relationships. It is open-mindedness.

It is patience. It is a warmth, an enthusiasm, a magnetism that reaches out and draws people together in understanding and love. Peace can be achieved only through people.

On LOVE-love is the dove of peace, the spirit of brotherhood. It is the dynamic motivation behind every worthy purpose. Love is the perfect antidote that floods the mind to wash away hatred, jealousy, resentment, anxiety and fear.

Reflect often on this philosophy of life. Life is too short to be wasted in hatred, revenge, fault finding, prejudice, intolerance and destruction. Set an example, teach, and encourage others, young and old, toward freedom, peace, and love. These are the tools by which you will shape your destiny, the destiny of your children and the destiny of America.

Sincerely,

Frank Ritrievi

William Jervis
1909 — 1969

Mr. William Jervis was a man who spent over thirty years of his life working with young people. For three of those years he taught mathematics at Wilson and spent numerous hours after school had ended coaching the chess team and the mathletes. But Mr. Jervis' wit and talent extended beyond the halls of Woodrow Wilson. He was a skilled artist in oils and a master with tools. His students and associates will always remember Mr. William Jervis as that quiet pipe smoking teacher who cared.

RAMPAGES '70

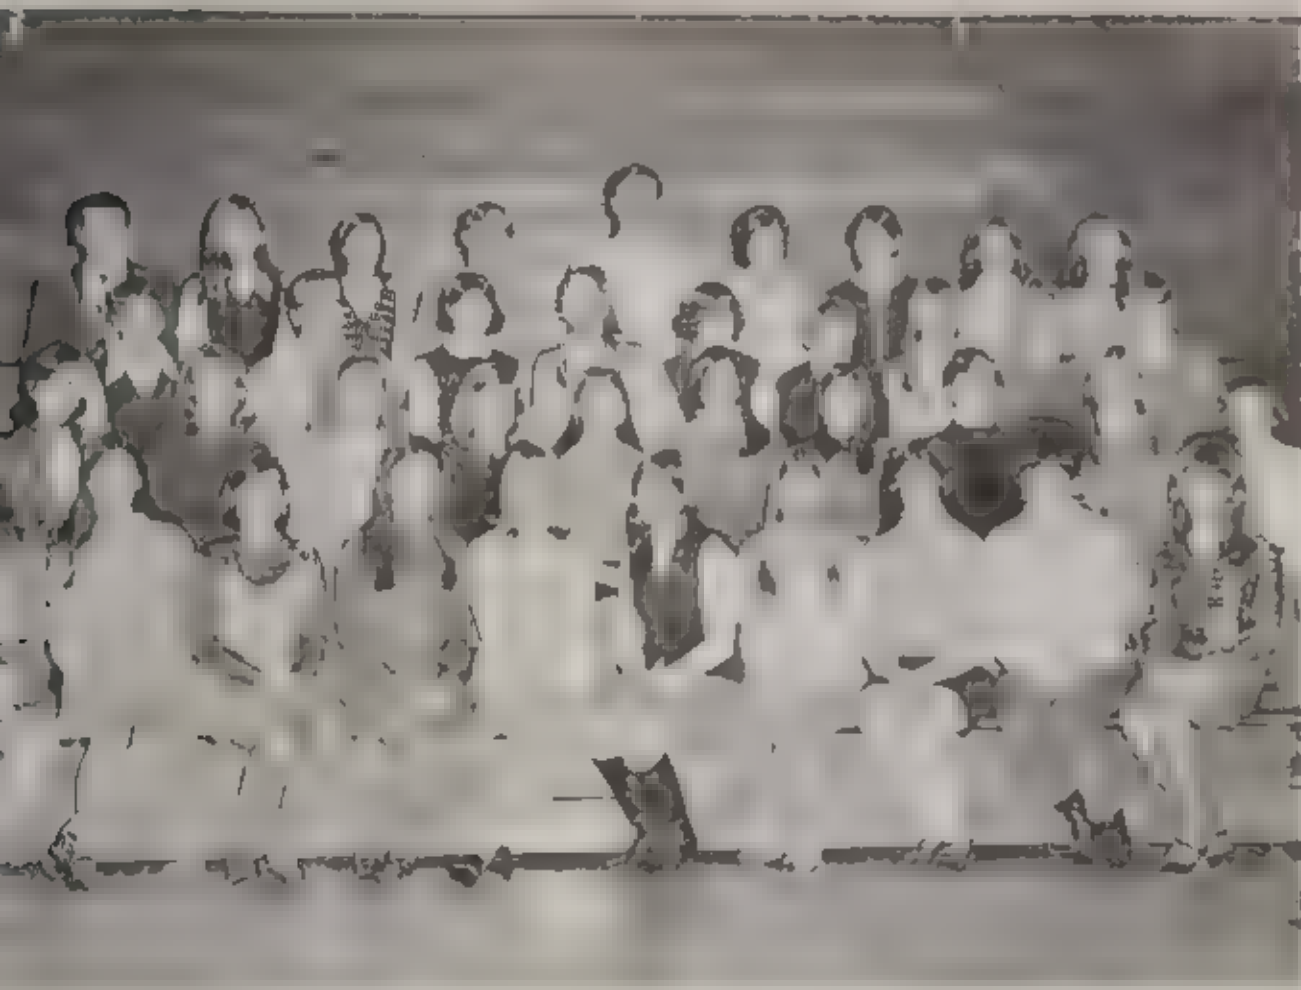

As a result of the determination of Nancy New and Lynda Rosen combined with the tireless efforts of Mary Enama, Ginny Scott, Ted Kowalski, Karin Kramer, Marsha Kalman, and Sue Smith, we were able to distribute **Rampages** before school had ended.

Pizza and Coke supplied the energy needed by the yearbook staff to put in the hundreds of hours, after school and on Saturdays, that were necessary to produce this publication.

We hope that **Rampages 1970** serves you as a source of pleasant memories for many years to come.

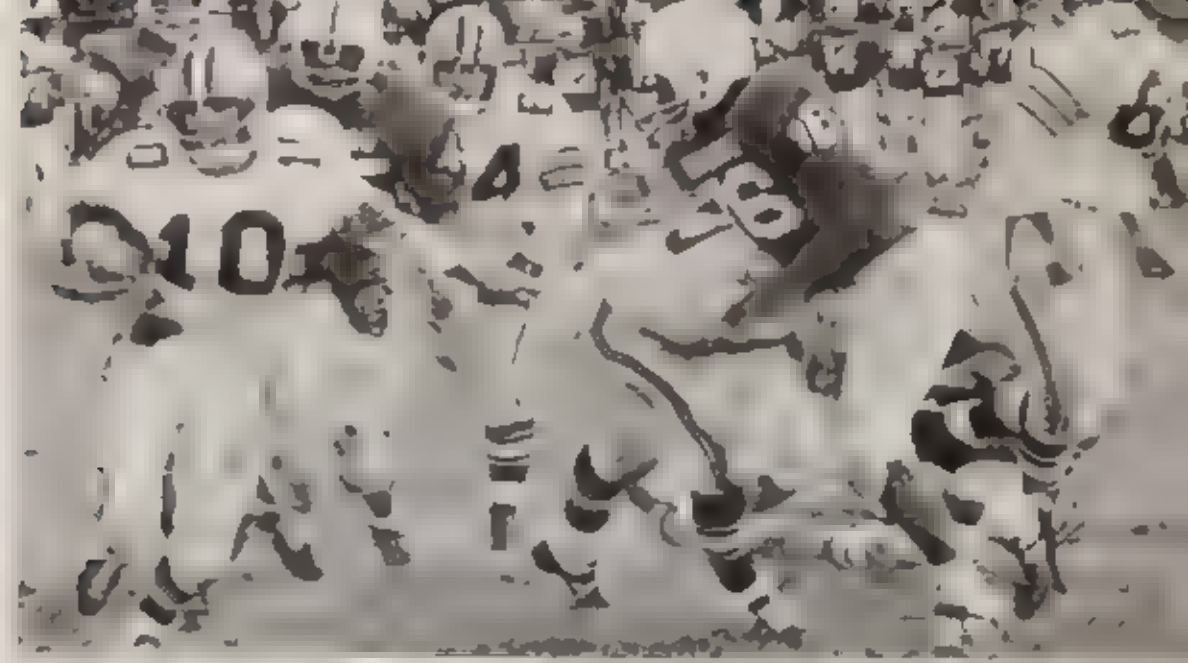

"To win a prize that no one's ever won."

(C) 1966 by Beechwood Music Corp.

SPORTS

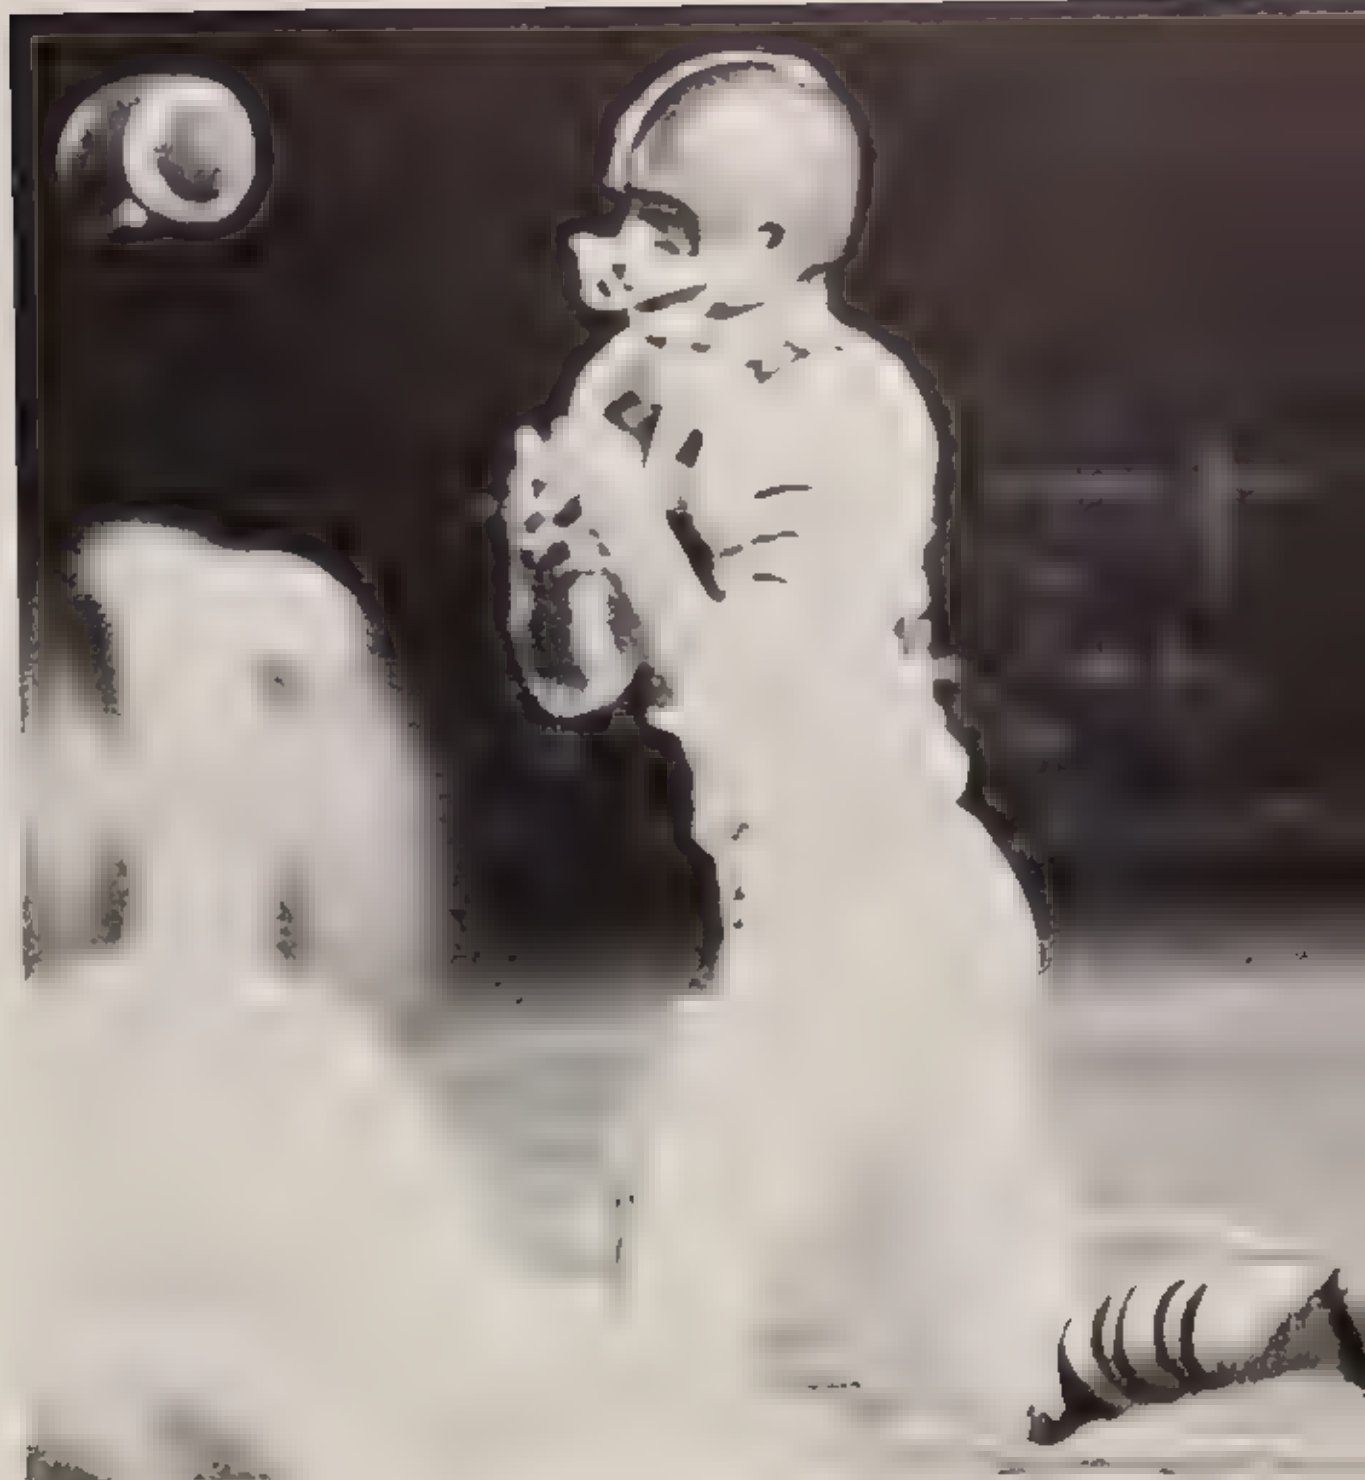

FOOTBALL

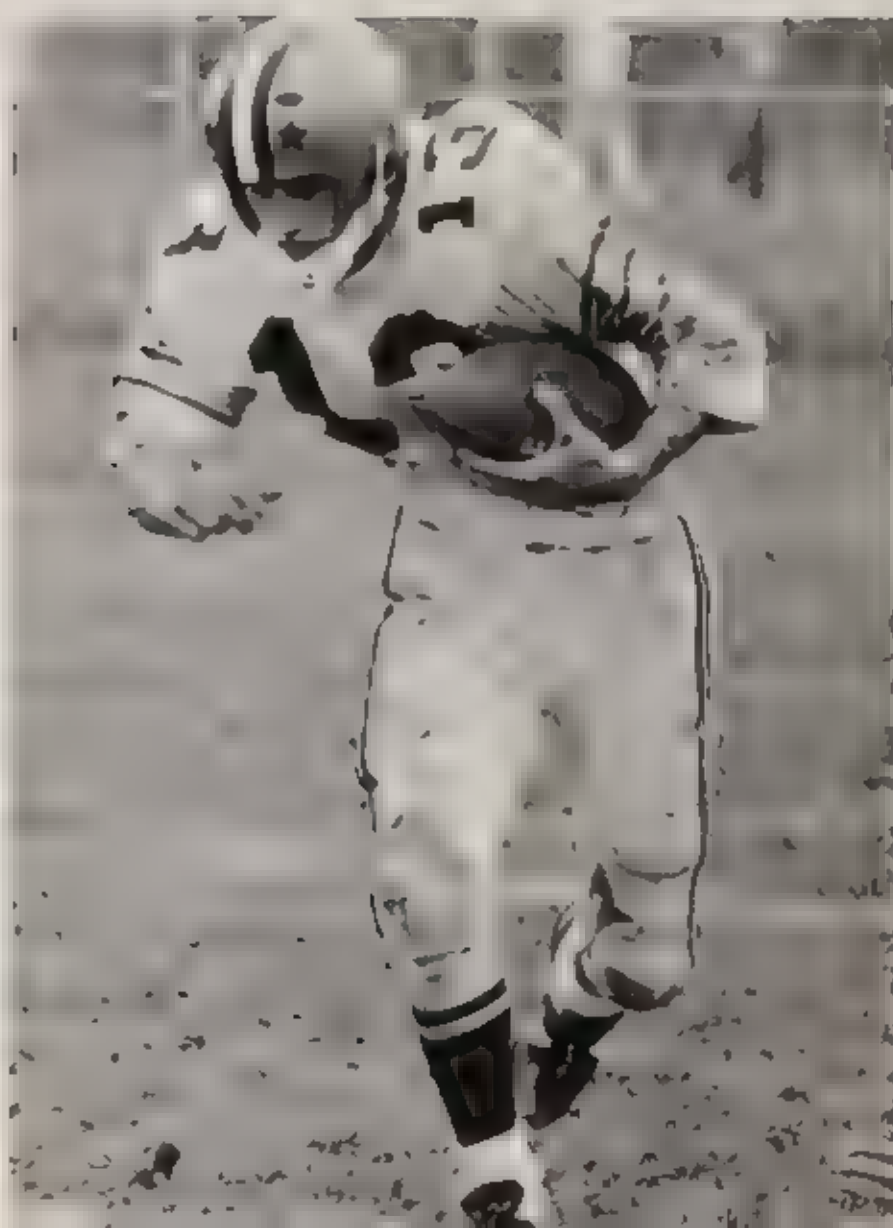

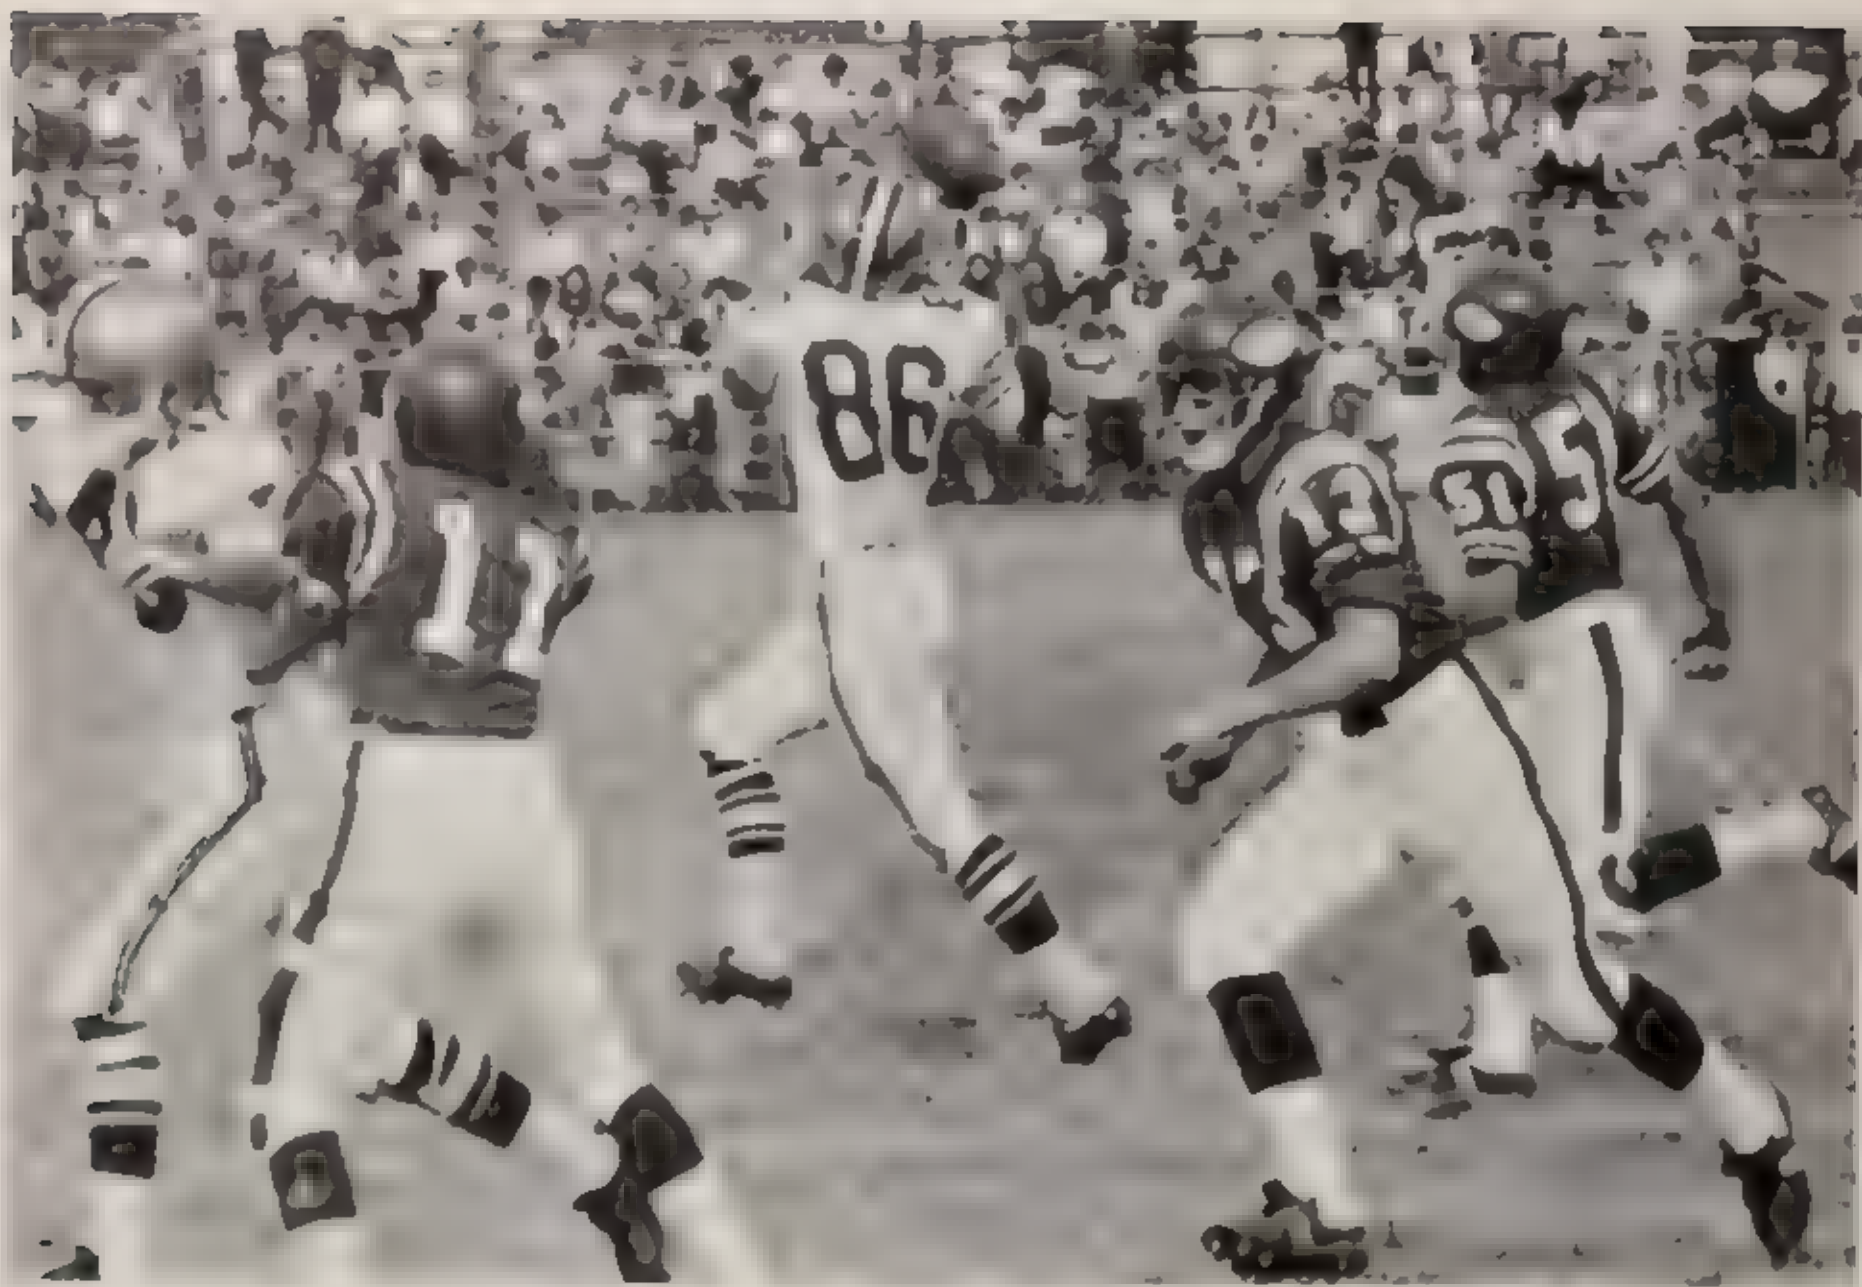

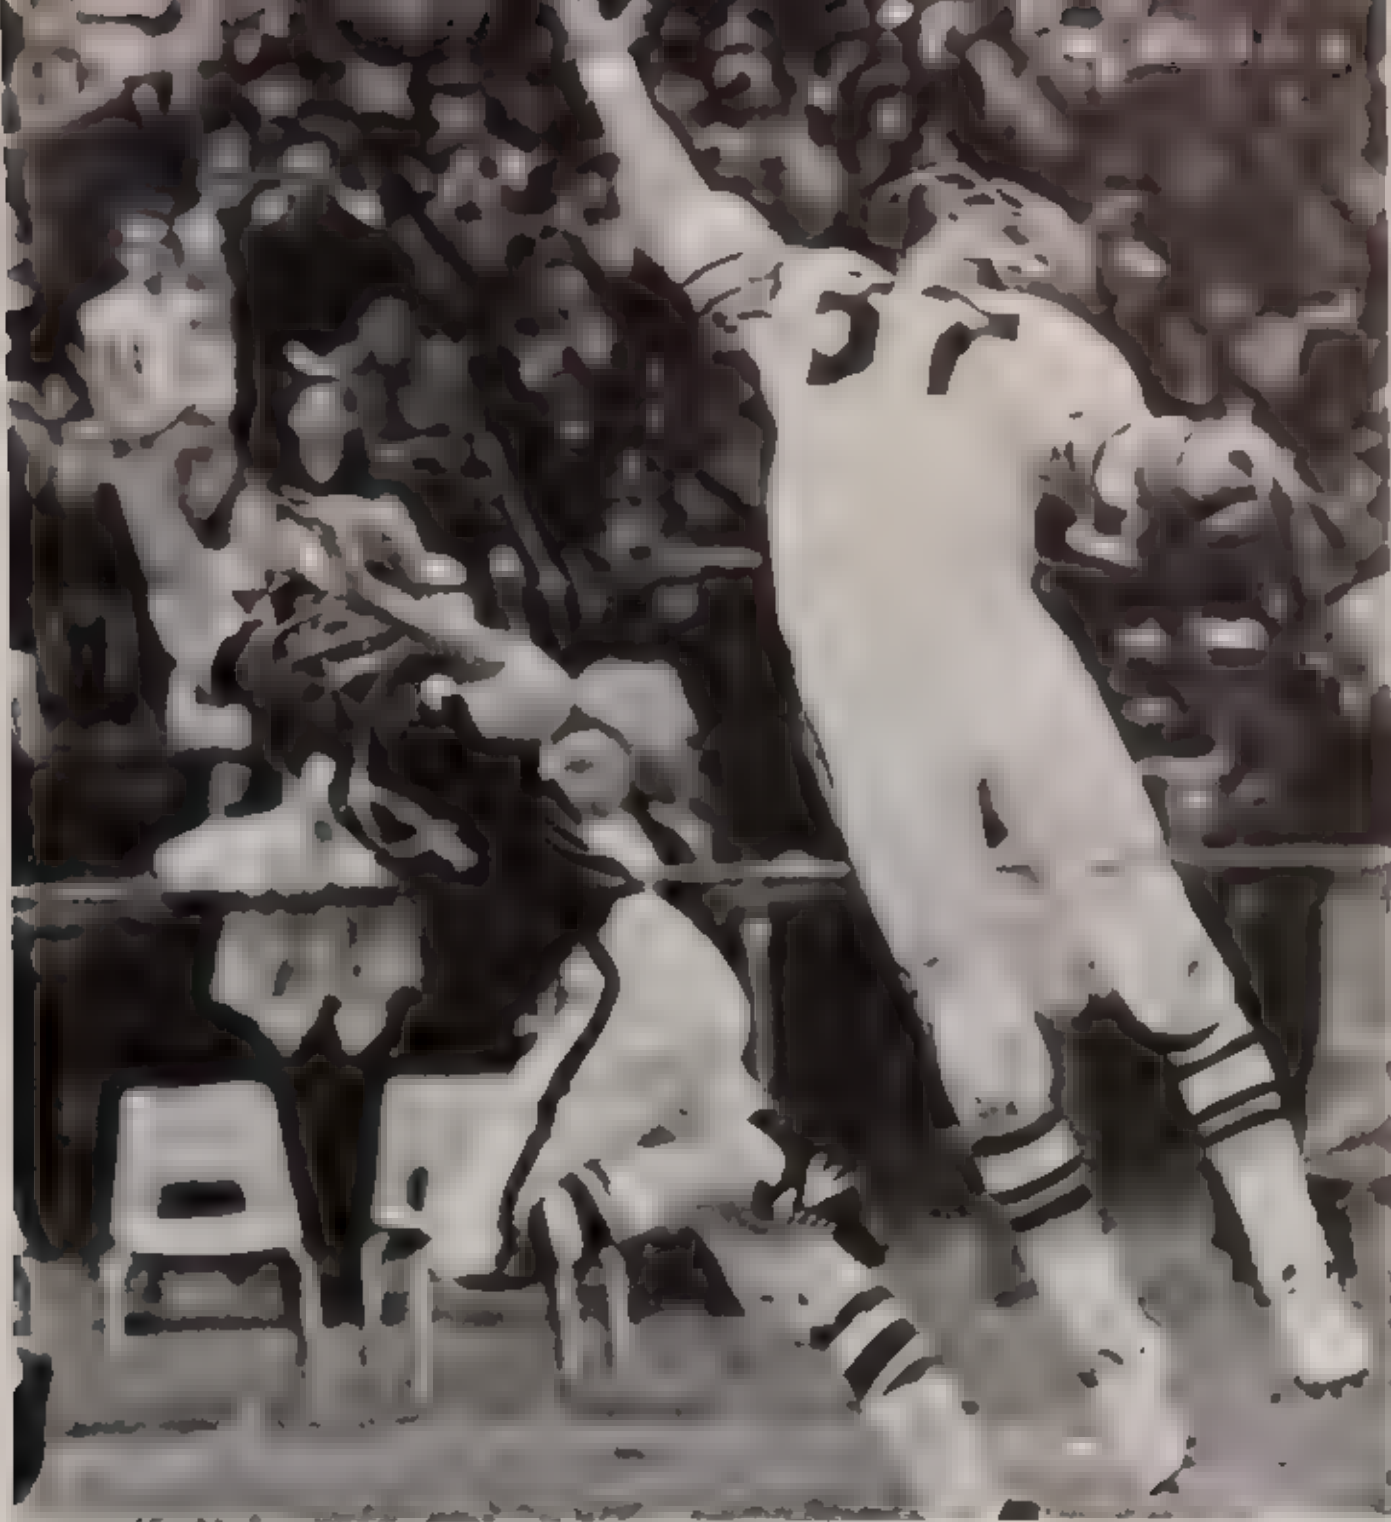

How far can sheer guts and determination with one objective in mind take a team? Despite their setbacks, the Rams were convinced of their ability. Obviously, there is only one place to prove it . . . on the field. And the Rams did just that. Their tremendous desire to win fanned the spark of school spirit into a roaring crescendo. But plagued by injuries, the Golden Rams could not grasp the League Title. Yet, the team never lost the Pride, Success, and Enthusiasm that the Rams have always possessed.

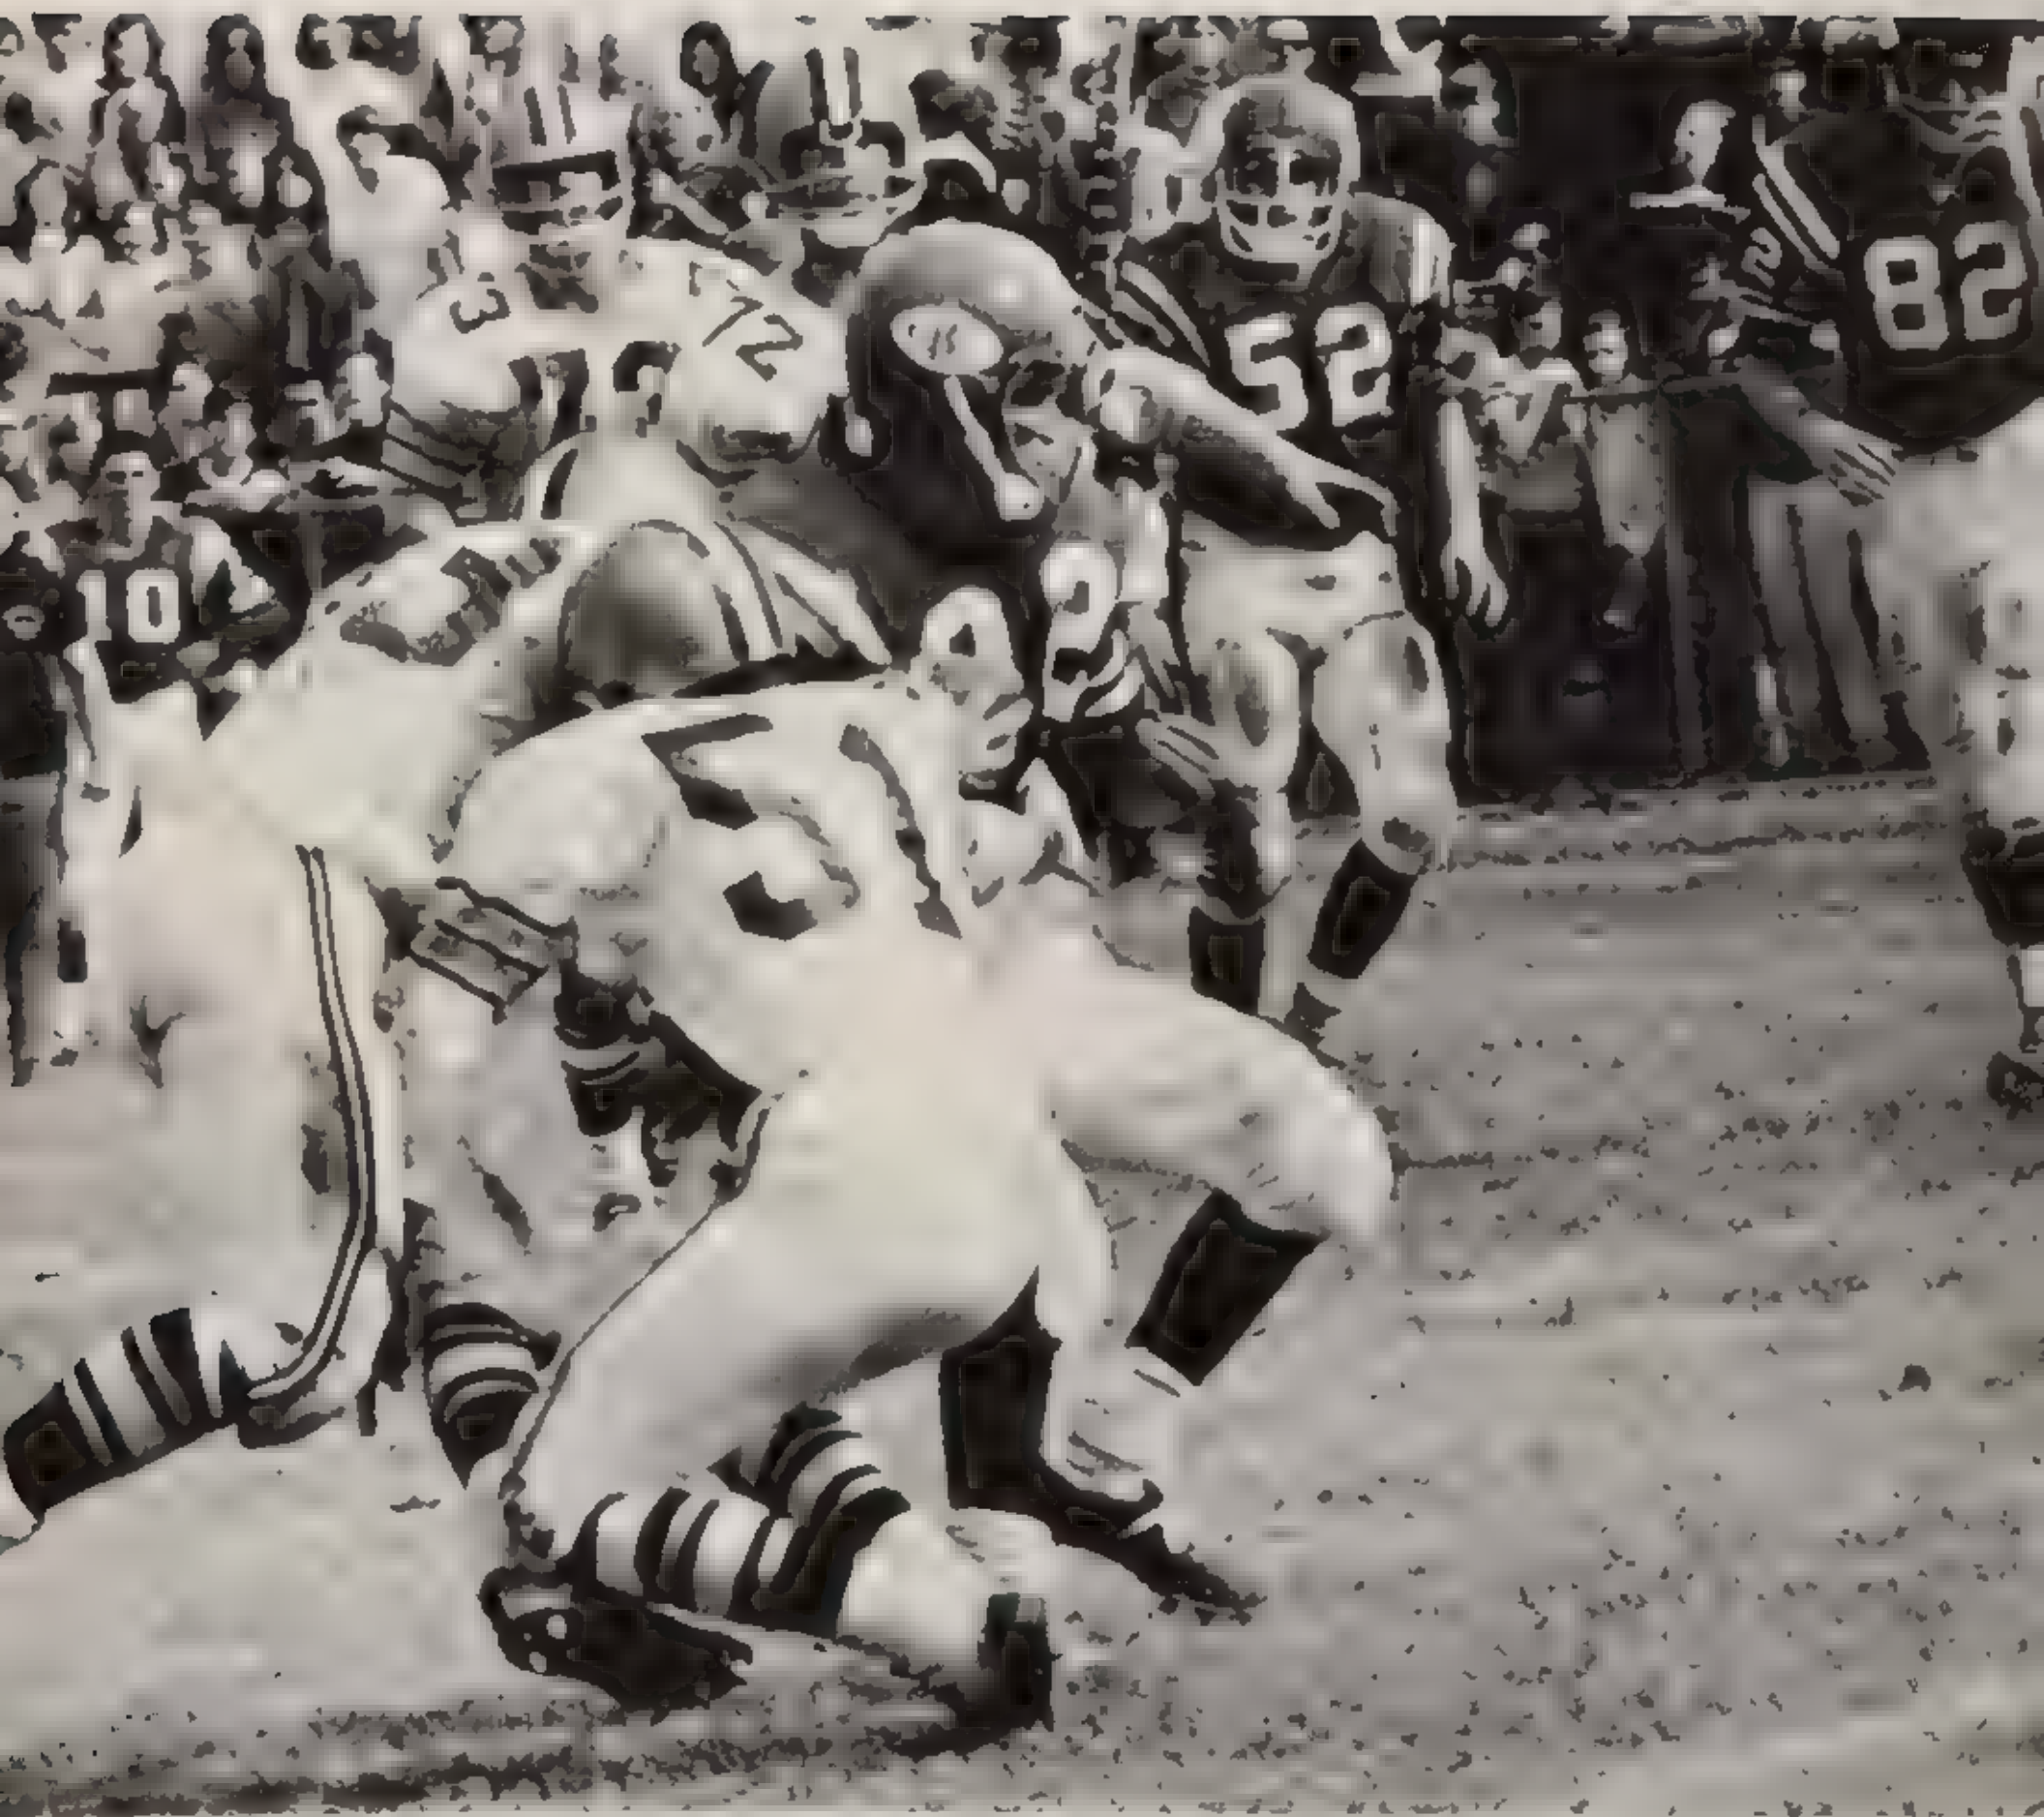

No. 2 has never tried harder!
